

Learn how to support and extend children’s growing language and thinking capacities in the two years before school through intentional, playful interactions. This program helps educators deepen their understanding of how children learn, how language develops, and how to respond. Topics include:

- Understanding learning intentions and principles for language development
- Intentional teaching through play and everyday interactions
- Supporting diverse communication styles
- Deepening oral language and higher-order thinking skills
- Using music, movement, art and inquiry to enrich language learning

Working with LGBTQIA+ Families and their Children

Become an ally and advocate for LGBTQIA+ families and their children within your service. This program is accessed via a dedicated, password-protected Interactive Learning Hub, developed in collaboration with the LGBTQIA+ community. The Hub offers curated resources, reflective tools, and practical guidance to help educators foster inclusive, affirming environments for children and families of all identities. Your service will also receive a practical toolkit featuring posters and children’s literature that celebrate gender and family diversity.

Environments to Support Cultural Inclusion

Explore how the environment can be used as a purposeful and intentional teaching strategy to foster inclusive practice. Central to this program is the idea that every child, adult, and family has a unique culture — not just those born in different communities. The program helps teaching teams design environments that support children’s identity, belonging, wellbeing, and inclusion outcomes.
